

Can You Tell When Your Coworkers are Busy?

Busylight Combi™ will tell you

BUSYLIGHT COMBI IS RED
-When your colleague is on the phone

BUSYLIGHT COMBI IS BLUE
-When your colleague doesn't want to be interrupted

UP TO 10 EXTRA WORK DAYS A YEAR FOR EACH EMPLOYEE

Employees won't have to work faster, but simply eliminate useless walks in the office and avoid being interrupted in the middle of a complex task.

Get 15 minutes of "extra time" every day by reducing unwanted interruptions and wasted time.

IMPROVED WORK ENVIRONMENT

Too many employees complain about disruptions in the work environment. Actually, two out of three employees feel that their colleagues disturb them too much.

Users are able to manually control the Busylight Combi so they let coworkers know whether they are available or are busy and need time to concentrate.

BETTER QUALITY

When you eliminate a lot of the daily interruptions, you will see an increase in the quality of the work.

Depending on the tasks of the individual, you will experience:

- improved dialogue with customers
- fewer errors on complex tasks
- simply better work
